and 32,469,354.19 schillings for October 1950. It is reported that SMVPs storage space is now at such a premium that only about 10 percent of Garrent purchases are being delivered to SMV warehouses; most orders are sent direct from the supplier to the refineries and drilling areas.

- 5. The SMV Central darehouse in Neusiedl s/d Zaya received the following import shipments in the period between 9 and 20 November 1950:
 - 13 cases of ball bearings, weighing a total of 815 kilograms, from Soyuzpromeksport, Moscow.
 - 4 carloads containing a total of 89,190 kilograms of pipe from Nikopol, USSR,
 - 7 carloads containing a total of 151,550 kilograms of pipe from Khrompik, USSR,
 - 6 carloads of pipe, weighing a total of 138,850 kilograms, from Taganrog, USSR
 - 48 sections of pipe, weighing a total of 15,300 kilograms, from Masped, Csepel, Hungary.

SMV Purchases

- 6. The SMV Purchasing Office is making a concentrated effort to expedite procurement for SMV enterprises which are now hastening to meet the Soviets 1950 quotas. Mine of the SMV's most competent purchasing agents have just been transferred from the oilfield areas to the Purchasing Office. (2) In the past few weeks the Purchasing Office has resumed its former policy of authorizing representatives of the various SMV installations to purchase directly from the supplier as soon as an order has been cleared. Meanwhile, SMV Headquarters has been disbursing all large schilling payments and it is now handling the SMV's account at Mannesmann-Trauzl A.G. and "Chemia" Chemikalien G.m.b.H. At present the SMV owes 2,500,000 schillings to Mannesmann-Trauzl and at least 220,000 schillings to "Chemia" Chemikalien which has threatened to stop deliveries unless this debt is cleared.
- 7. Shvetsov, acting director of the SMV Purchasing Office, is trying to procure 1,000 tons of ascending and drill pipe but so far he has not been able to purchase this commodity in Switzerland, western Germany or the Satellites. Servause or the present pipe shortage, the SMV is row handling all pipe shipments from the Soviet Union on a priority basis. Ninety percent of this Soviet made pipe is destined for the Latzen oilfields.
- 8. Shvetsov has issued a directive forbidding any SMV installation to order tires direct from the Semperit factory; all tires must be purchased through individual dealers.
- 9. During the period between 9 and 13 November 1950 the SMV Purchasing Office paid cash for the following purchases. (All USIA-controlled firms in this list have been noted by an asterisk. Unless otherwise indicated, all non-USIA enterprises are located in the Allied sectors of Vienna.)

Comment: These purchasing agents are very disgrunted because they have had to leave their homes in the cilfields. They are now demanding extra com-25X1 (2) pensation to cover the costs of moving their families to Vienna.

Comment: The SMV Purchasing Office paid this firm the sum of 170,000 schillings for purchases made during the month of October 1950. 25X1 (3)

Approved For Release 2003/08/11/: CIA-RDP82-00457R006600390003-8
